

Mac versions supported by the Falcon Sensor

Solution: [Sensors - MacOS Platforms](#)

Published Date: 2026/07/17

All OS Platforms: [Windows](https://supportportal.crowdstrike.com/s/article/Supported-Operating-Systems-Windows) (<https://supportportal.crowdstrike.com/s/article/Supported-Operating-Systems-Windows>), [Legacy](https://supportportal.crowdstrike.com/s/article/Supported-Operating-Systems-Windows-Legacy) (<https://supportportal.crowdstrike.com/s/article/Supported-Operating-Systems-Windows-Legacy>), | **Mac (Currently viewing this article)** | [Linux](https://supportportal.crowdstrike.com/s/article/Supported-Operating-Systems-Linux) (<https://supportportal.crowdstrike.com/s/article/Supported-Operating-Systems-Linux>), | [Legacy](https://supportportal.crowdstrike.com/s/article/Supported-Operating-Systems-Legacy) (<https://supportportal.crowdstrike.com/s/article/Supported-Operating-Systems-Legacy>), | [Android](https://supportportal.crowdstrike.com/s/article/Supported-Operating-Systems-Android) (<https://supportportal.crowdstrike.com/s/article/Supported-Operating-Systems-Android>), | [iOS](https://supportportal.crowdstrike.com/s/article/Supported-Operating-Systems-iOS) (<https://supportportal.crowdstrike.com/s/article/Supported-Operating-Systems-iOS>).

Supported Apple macOS Versions

Both Intel CPU and Apple silicon are supported on macOS Sonoma v14 through Tahoe v26.

Note: The upcoming macOS Golden Gate v27 runs exclusively on Apple silicon.

macOS Codename	Version	Build Info	Minimum Sensor Version	Falcon EOS (https://supportportal.crowdstrike.com/s/article/Falcon-Sensor-Support) Date
Tahoe	26.x	Tahoe build info on Wikipedia (https://en.wikipedia.org/wiki/MacOS_Tahoe#Release_history)	All supported sensor versions	December 31, 2028
Sequoia	15.x	Sequoia build info on Wikipedia (https://en.wikipedia.org/wiki/MacOS_Sequoia#Release_history)	All supported sensor versions	December 31, 2027
Sonoma	14.x	Sonoma build info on Wikipedia (https://en.wikipedia.org/wiki/MacOS_Sonoma#Release_history)	All supported sensor versions	<u>December 31, 2026</u> (https://supportportal.crowdstrike.com/s/article/Tech-Alert-End-of-OS-Support-macOS-Sonoma-Version-14), Last supported on 7.38 LTS

Unsupported Apple macOS Versions

All other macOS versions are **unsupported**, including but not limited to:

- macOS Ventura 13
 - Last supported on sensor 7.26, which went EOS on Jan 3rd, 2026

- See [Tech Alert \(https://supportportal.crowdstrike.com/s/article/Tech-Alert-End-of-OS-Support-macOS-Ventura-Version-13\)](https://supportportal.crowdstrike.com/s/article/Tech-Alert-End-of-OS-Support-macOS-Ventura-Version-13) for details
- macOS Monterey 12
 - Last supported on sensor 7.16, which went EOS on December 8th, 2024.
 - See [Tech Alert \(https://supportportal.crowdstrike.com/s/article/Tech-Alert-End-of-OS-Support-macOS-Monterey-Version-12\)](https://supportportal.crowdstrike.com/s/article/Tech-Alert-End-of-OS-Support-macOS-Monterey-Version-12) for details
- macOS Big Sur 11
 - Last supported on sensor 6.57.17003, which went EOS on December 23rd, 2023.
 - See [Tech Alert \(https://supportportal.crowdstrike.com/s/article/Tech-Alert-End-of-OS-Support-macOS-Big-Sur-Version-11\)](https://supportportal.crowdstrike.com/s/article/Tech-Alert-End-of-OS-Support-macOS-Big-Sur-Version-11) for details
- macOS Catalina 10.15
 - Last supported on sensor 6.41.15404, which went EOS on December 18th, 2022.
 - See [Tech Alert \(https://supportportal.crowdstrike.com/s/article/Tech-Alert-End-of-OS-Support-macOS-Catalina-Version-10-15\)](https://supportportal.crowdstrike.com/s/article/Tech-Alert-End-of-OS-Support-macOS-Catalina-Version-10-15) for details
- All earlier versions of macOS and OS X
- Container-based macOS solutions, including but not limited to Docker, are not currently supported.
